Krenite S is different from other brush control chemicals. Treated vegetation with Krenite S does not usually show any immediate affects; rather it does not produce foliage the following spring.

Krenite S will not be applied at locations where adjacent property owners object to the use of this material. Property owners along the above locations who object may post the right of way for no spraying and call 800-367-7623.

The VDOT Staunton District serves Frederick, Shenandoah, Clarke, Warren, Page, Rockingham, Augusta, Highland, Rockbridge, Alleghany and Bath counties.
